Speed System

The motorised cleaning trolley at your service.

Speed System, agility in movement:
the motor that takes your place.

SPEED & EFFICIENCY

No more hard effort but fast and easy moving

ELECTRIC MOTOR

Long life motor and integrated motorised wheel

SAFETY

Electronic safety key with button for immediate stop

SIGNIFICANT SAVING

Just one multi-service trolley easily transportable to serve a multi-store building

Sloping Floor? Speed System will handle it.

Thanks to the integrated motor it is possible to carry the trolley also on surfaces with maximum slope equal to 15%.

Technologies

- 12V battery
- ø 150 mm motorised wheel
- Manual traction regulator with a maximum speed of 7 Km/h at average load
- Metal electronic safety key
- Button
- Battery Charger

Speed System:
boost the cleaning trolley you want.

Start engine button

Power key and speed regulator

Electrical socket for charging

The integrated motor does not clutter the internal compartments of the trolley, leaving empty space inside.

MOTORISED WHEEL

SPEED SYSTEM IS AVAILABLE FOR:

The following versions of OPERA STANDARD & REUSE. It is available even after sales.
